WHEN HE MADE RECORD JUMP

Youngster Was Trying to Escape Dog He Thought Was Mad, So There Was Abundant Reason.

Commander C. B. Fry, who has temporarily relinquished athleticism in order to train boys for the navy, described to me the other day how he first came to discover his ability as

"When cuite a youngster," he said, "I was one way strolling along close to our house, when there came bounding along the road in my direction an exceedingly wicked-looking terrier 1 had recently become possessed of.

"The animal was foaming at the mouth and showed other unmistakable signs of excitement and distress. Hydrophobia was rife in the district at the time. A horrid fear gripped me. Turning swiftly aside, I took the dirch and hedge bordering the road in one wild leap, landed safely in an orchard on the other side, and was up a plum tree a few seconds later.

"The dog, however, followed through a gap in the hedge and sat at the hottom of the tree, but he brought a toud in his mouth, and I perceived he was not mad beyond the degree of trying to eat the toad. So I came down, and went to have a look at "2 hedge I had jumped over.

"It was much higher than my head. not to mention the ditch. It was many years before I jumped as high again." -Pearson's Weekly.

IRON FOUNDRY IN WAR AREA

How Women of France Are "Doing Their Bit" to Keep the Wheels of Industry Moving.

An interesting narration of operation urder unique and difficult conditions . in Iron foundry in the war area is given by the correspondent of a British paper writing from the firing line in France. He relates: One does not see much foundry work out here, but a few weeks ago I was hilleted in a town near by, and actually saw a cupela in full blast. I at once got permission to have a look around, and was greatly susprised at what I shw. The foundry was a very primitive atfair-just a little jobbing shop-and was mostly run by French women and girls, superintended by a few men. These women were making work up to three or four hundred pounds in weight, and in a little side shop some half dozen women were making component parts of machinery by the simple method of bedding-in. I afterward saw some of the finished work, and it would put to shame the work done by many of our so-called molders at home. The women work in ordinary dress, and work very clean and exact in both iron and brass, and also under shell fire and air raids. In the shop was a great hole where a German had dropped a bomb the night before, but the women still worked on .-Scientific American.

Reservoir Dams in Tunis.

Already the French are looking forprovince of Tunis in Africa. According to a civil engineer who has been First Baptist church at Whitmire on investigating the matter there are where dams could be constructed, with 000,000 to 400,000,000 cubic meters, and water power ranging from 30 to 6,000 horse power of continuous energy. The engineering difficulties are stated to be small in comparison with those of Chair. Entertainment Com. dams already built in Europe and the gie Greene, of 1219 Avenue A. Ens-United States, and the utilization of the water for irrigation, electrical power, and in one case canal navigation is estimated to furnish a good of Roman dams found in Tunis show by what methods the country became "the granary of Rome" under the empire and the ruins of large cities, with Write for new illustrated catalogue, coliseums, bath and temples of great those ancient times.

Great Apple Industry.

The apple industry in the United grown to 60,000,000 barrels in 1916; Whitmire, S. C. it dropped to 28,000,000 in 1911, and went up again to 40,000,000 barrels in 1912. From this date forward there is a continual increase in the production, for the great cities of the world are crying for apples, and people everywhere are just beginning to apprehend the actual value of this delicate fruit. We are turning backward to our heritage, for in the days of our greatgrandfathers the common adage was: "An apple a day will keep the doctor away.' Fruit as a part of the diet represents a most health-giving element.-Christian Herald.

COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Sideache, Backache, and Weakness. Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex .- Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back severe I would have to take to bed and suffered usually about three day: ... I suffered this way for three years and got to be a mere skeleton and was so weak I could hardly stand alone Was not able to go anywhere and had to let my house work go ... I suffered awful with a pain in my back and l i had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach get in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help One day a Birthday Almanac was

thrown in my yard. After reading its testimonials I decided to try Car dui, and am so thankful that I did" for I began to improve when on the second bottle...I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today.
